PROFILE

Product Designer with 6 years of experience. I design experiences that hold up on both substance and form, from user research through to production.

I am at ease with complex business products, particularly SaaS and CRM, balancing business logic, technical constraints and ease of use. I also enjoy innovation projects and AI POCs, where you move forward through uncertainty without loosening your design standards.

I care about making interfaces accessible and consistent, about mentoring junior designers and apprentices, and about staying close to the technical side of things.

SKILLS

Product design and UX: UX strategy, user research, usability testing, prototyping, user interface design, mobile-first, accessibility, sustainable design.

Design System: design, contribution and governance of design systems, including multi-brand systems.

Collaboration and delivery: workshop facilitation, project management, Agile Scrum, Product Owner support, mentoring of junior designers and apprentices, UX-UI evangelism.

Focus areas: complex business SaaS and CRM, healthcare and non-profit, real estate and finance, transport and mobility, innovation and AI POCs, design systems.

Tools: Figma, Mural, Cosmos, Zeplin, Jira, Azure DevOps, GitHub, Notion, Loop, Mermaid, Claude, Claude Code, Gemini.

PROFESSIONAL EXPERIENCE

Product Designer — Lead UX/UI

Blue Soft — Paris / Orléans, France — September 2020 to present (apprenticeship 2020-2021, permanent contract since September 2021)

- Design systems: contributed to Blue Soft's Digital Factory design system; designed a design system for a client, across three products; designed a multi-brand design system for a telecom operator.
- Healthcare and non-profit: AFM Téléthon, designed an iOS and Android app for beneficiaries; BVIDF, kicked off the redesign of the patient care pathway; Télédiag, supported a designer on the graphic redesign of a showcase website.
- Real estate and finance: SERGIC, designed the tenant, landlord and property management company portals; NOVAXIA, designed the subscription journey for SCPI and 150-0 B ter investment products.
- Transport and mobility: Chabé, facilitated a design workshop for a self-service B2C booking journey and designed the partner portal.
- Innovation and AI POCs: design work under uncertainty, from ideation to prototype and MVP.
- Led UX-UI projects within Agile (Scrum) development teams, working directly with Product Owners and engineers.
- Mentoring: supported junior designers and apprentices; promoted UX-UI practices across teams and clients.

UX-UI Designer

Société Générale — Paris, France — September 2019 to July 2020 (apprenticeship, 1st year Master's in UX/UI)
